CABINETRY

A photograph of a modern kitchen interior. The kitchen features white, minimalist cabinetry with a large island. The countertop is made of white marble with grey veining. A black faucet is mounted on the island. Above the island, a long, thin light fixture is suspended. In the background, there are black glass-fronted upper cabinets. To the right, a black built-in oven and a black coffee machine are visible. In the foreground, a dark wood dining table is set with four chairs. The room has a clean, contemporary aesthetic with neutral tones and modern lighting.
